#### **1.4. Formulation process (15)**

*(Articulate the process for formulating the Vision, Mission and PEOs of the program)*

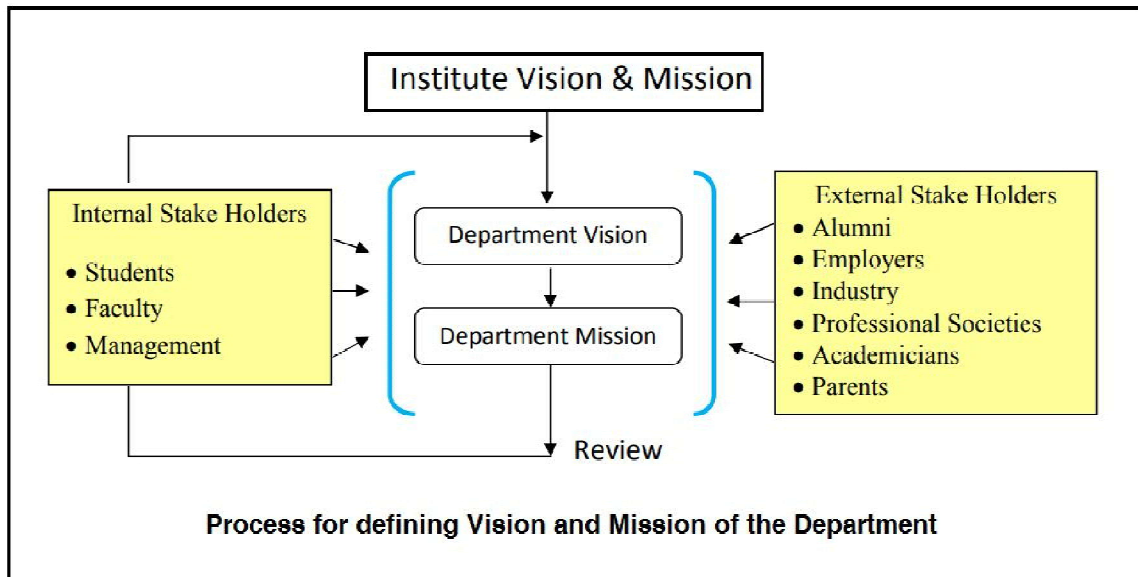

##### **Process for formulating the Vision and Mission**

The Department of Business Administration established the Vision and Mission statement through a consultative and review process involving the stakeholders (students, alumni, parents, professional bodies, faculty, industry, and management) for their perspectives. A Committee at Institute-faculty-department level is formed for identification, implementation and review of Vision and Mission statements in consistency with the Vision and Mission statements of the Institute. Following steps are taken for developing the department's Vision and Mission:

- Core team of faculty members is formed for developing the department Vision and Mission statement in alignment with Vision and Mission of the Institute.
- Vision and Mission of Rajshree Institute of Management & Technology are taken as the guiding base. The Vision and Mission statements are further brainstormed among faculty members.
- A draft is prepared and circulated among all stakeholders for their suggestions. Feedbacks from all stakeholders are considered before finalizing it.

- The Vision and Mission statements are finalized and sent for approval. The Vision and Mission are further published and disseminated among the stakeholders after approval.

**Figure: 1**

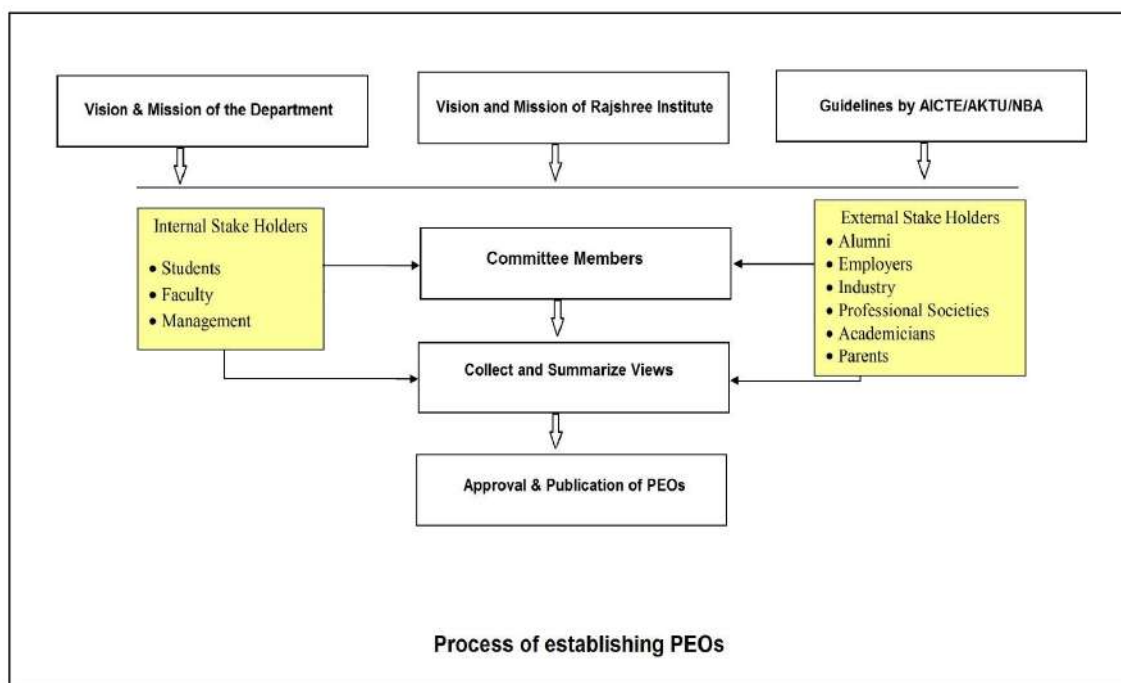

## **Process for formulating Programme Educational Objectives (PEOs)**

Program Educational Objectives (PEOs) of MBA Programme are established through a consultation process involving the stakeholders (students, alumni, parents, professional bodies, faculty, industry, and management) as directional inputs are important from them. The guidelines and model course curriculum of AICTE, New Delhi and Dr. APJ Abdul Kalam Technical University, Lucknow (AKTU) offers a direction to PEOs. The PEOs are framed through the following steps:

- A Committee at Institute-faculty-department level is formed to establish PEOs. The committee consists of Director, Head of the Department, Senior Faculty members, and stakeholders.
- Initial PEOs drafts were prepared by the committee by considering the Vision and Mission of the Department and other parameters. PEOs are formulated keeping in mind the following parameters:
  - Guidelines of AICTE, New Delhi, NBA and AKTU, Lucknow
  - Requirements and expectations of Industry and Society at large
  - Feedback from Stakeholders
  - In line with vision and mission of Rajshree Institute of Management & Technology, Bareilly
- The PEO's were framed by a committee were discussed, finalized in the common staff meeting for circulation among all stakeholders for their suggestions. It is circulated among them to know their views and suggestions. The committee deliberates on the views and suggestions expressed by stakeholders. Finally after necessary approvals, PEO's are published and disseminated among the stakeholders. The above mentioned process is shown as flowchart in following figure:

**Figure: 2**

### **1.5. Consistency of PEOs with the mission (15)**

*(Generate a “Mission of the Institute – PEOs matrix” with justification and rationale of the mapping)*

#### **Mission Statement**

- M1: Dissemination and imbibe of management knowledge as per standards and inculcate entrepreneurial spirit among students
- M2: To create a sense of ethical and socially responsible professionals
- M3: Train the students to become the productive assets for the corporate organization and nation by enhancing their employability skills
- M4: Inculcating and Reinforcing the commitment to human values
- M5: Use of latest pedagogy for improving teaching learning process
- M6: Involve the students and faculty members in socially and industry relevant research projects

### **3.1. Attainment of Program Outcomes (50)**

#### **3.1.1. Describe the assessment tools and processes used to gather the data upon which the evaluation of Program Outcome is based (15)**

(Describe the assessment tools and processes used to gather the data upon which the evaluation of each of the Program Outcomes is based indicating the frequency with which these processes are carried out. Describe the assessment processes that demonstrate the degree to which the Program Outcomes are attained and document the attainment levels)

Attainment of program outcomes is assessed by use of continuous direct and indirect measures.

##### **Direct Assessment Measure:**

Direct assessments provide for the direct examination or observation of student knowledge or skills against measurable learning outcomes. Faculty members conduct direct assessments of student learning throughout a course using such techniques as exams, quizzes, demonstrations, and reports. These techniques provide a sampling of what students know and/or can do and provide strong evidence of student learning. The performance of a student in a semester is evaluated through continuous class assessment and end semester examination. The continuous assessment is based on class tests, assignments/tutorials, quizzes/viva-voce and attendance. The marks for continuous assessment (Sessional marks) shall be awarded at the end of the semester. The end semester examination is comprised of written papers, practical's and viva-voce, inspection of certified course work in classes, project work or by means of any combination of these methods. The distribution of marks for sessional, end semester theory papers, practical's and other examinations, seminar, project and industrial training is accordance to AKTU, Lucknow. The practical's, viva-voce, projects and reports is examined/evaluated through internal and external examiners. The marks obtained in a subject consist of marks allotted in end semester theory paper and sessional work.

##### **Award of Sessional Marks**

Sessional marks for theory subjects is awarded as prescribed and at present the break-up of sessional marks shall be as follows:

### Theory Subjects:

- Class test which will comprise 30% of total theory marks with two mid-term tests of equal weightage.
- Teacher Assessment Tutorial/Assignment/ Quizzes/ Attendance comprise 20% of total theory marks.

### **Award of Summer Training Project Reports**

- Each student has to successfully complete a following project for the award of MBA degree
- (i) At the end of second semester examination, it is mandatory for every student of MBA to undergo on -the-job practical training in any manufacturing, service or financial organization. The training is of 6 to 8 weeks duration. The Institute facilitates this compulsory training for students.
- (ii) The student, after the completion of training submits a report to the Institute which form part of third semester examination.

### **Award of Research Project Report**

- In fourth semester, the candidates have to submit a Research Project Report on a problem / topic (from the specialization areas) under the supervision of a core faculty member of the department. Both Project (Summer Training Report & Research Project Report) is treated as project work.

### Indirect Assessment Measure:

Indirect assessments of student learning ascertain the perceived extent or value of learning experiences. They assess opinions or thoughts about student knowledge or skills. Indirect measures can provide information about student perception of their learning and how this learning is valued by different constituencies. Indirect measures are based on the data collected from the surveys from students, employers, advisory body, alumni members, etc. Such information is used to refine the conduct of the program for better attainment of outcomes. An indirect assessment is used to measure certain implicit qualities of student learning, such as values, perceptions, and attitudes, from a variety of perspectives.

Example of Direct and Indirect Assessment –

Method	Direct	Indirect	Method	Direct	Indirect
Exit and Other Interviews		✓	Locally Developed Exams	✓	
Simulations	✓		External Examiner	✓	
Behavioral Observations	✓		Written Surveys, Questionnaires		✓
Archival Data		✓	Portfolios	✓	
Focus Groups		✓	Oral Exams	✓	
Performance Appraisal	✓		Standardized Exams	✓

Indirect attainment level of PO is determined based on the student exit surveys, employer surveys, co-curricular activities, extracurricular activities etc.

**Example:**

1. It is assumed that a particular PO has been mapped to four courses C2O1, C3O2, C3O3 and C4O1
2. PO attainment level will be based on attainment levels of direct assessment and indirect assessment
3. For affiliated, non-autonomous colleges, it is assumed that while deciding on overall attainment level 80% weightage may be given to direct assessment and 20% weightage to indirect assessment through surveys from students (largely), employers (to some extent). Program may have different weightages with appropriate justification.
4. Assuming following actual attainment levels:

**Direct Assessment**

C2O1 – High (3)

C3O2 – Medium (2)

C3O3 – Low (1)

C4O1 – High (3)

Attainment level will be summation of levels divided by no. of courses  $3+2+1+3/4=9/4=2.25$

**Indirect Assessment**

Surveys, Analysis, customized to an average value as per levels 1, 2 & 3. Assumed level - 2

5. PO Attainment level will be 80% of direct assessment + 20% of indirect assessment i.e.  $1.8 + 0.4 = 2.2$ .

### **3.2. Course Outcomes (50)**

**3.2.1.** Describe the assessment tools and processes used to gather the data upon which the evaluation of Course Outcome is based (10)

Describe different assessment tools (semester end examinations, mid-semester tests, laboratory examinations, case studies, mini projects, minor projects, major projects, seminars, presentations, observation record, analysis of plans, reports, projects, outcome of role play and discussion and study report, student portfolios etc.) to measure the student learning and hence attainment of course outcomes. (Student portfolio is a collection of artifacts that demonstrate skills, personal characteristics and accomplishments created by the student during study period.)

The process adopted to map the assessment questions, parameters of assessment rubrics etc. to the course outcomes to be explained with examples. The process of data collection from different assessment tools and the analysis of collected data to arrive at CO attainment levels need to be explained with examples.

The term Assessment has been widely used by educators to evaluate, measure, and document the academic readiness, learning progress, and skill acquisition of students throughout their learning in life. Different terminologies are there for assessment and evaluation such as Measurement, Tests, Examination, Appraisal and Evaluation. In education, the term assessment refers to the wide variety of methods that educators use to evaluate, measure, and document the academic readiness, learning progress, and skill acquisition. It is the process of systematically gathering information as part of an evaluation. Assessment is carried out to see what students know, understand and are able to do. Assessment is very important for tracking progress, planning next steps, reporting and involving parents, and students in learning.

Evaluation is a broader term that refers to all of the methods used to find out what happens as a result of using a specific intervention or practice. Evaluation is the systematic assessment of the worth or merit of some object. It is the systematic acquisition and assessment of information to provide useful feedback about some object. Though the terms assessment and evaluation are often used interchangeably, there are some difference in it. Assessment is defined as gathering information or evidence, and evaluation is the use of that information or evidence to make judgments.

The primary purpose of assessment is to improve students' learning and teachers' teaching as both respond to the information it provides. Assessment for learning is an ongoing process that arises out of the interaction between teaching and learning. The term 'continuous assessment' is used to describe assessments that are completed during the course module. The method is also referred to as curriculum integrated assessment or embedded assessment. Continuous assessments replace the final assessment or can be combined with the final assessment to calculate a final grade. The reason for doing continuous assessment is to secure/enable a continuous and independent work rate and learning for students during the course. It is important that students practice the assessment method before the final assessment. This 'curriculum embedded' or 'continuous assessment' allows for feedback to students and teachers.

### **3.2.2. Record the attainment of Course Outcomes of all courses with respect to set attainment levels (40)**

*Program shall have set Course Outcome attainment levels for all courses.*

*(The attainment levels shall be set considering average performance levels in the university examination or any higher value set as target for the assessment years. Attainment level is to be measured in terms of student performance in internal assessments with respect to the Course Outcomes of a course in addition to the performance in the University examination)*

#### **Measuring Course Outcomes attained through University Examinations**

*Target may be stated in terms of percentage of students getting more than the university average marks or more as selected by the Program in the final examination. For cases where the university does not provide useful indicators like average or median marks etc., the program may choose an attainment level on its own with justification.*

**Note:** In case of non affiliating institutions (Autonomous/deemed universities etc.), the attainment level targets may be set considering average performance levels in the preceding years with due justifications.

#### **Example related to attainment levels Vs. targets: (The examples indicated are for reference only. Program may appropriately define levels)**

*Attainment Level 1: 60% students scoring more than University average percentage marks or set attainment level in the finalexamination.*

*Attainment Level 2: 70% students scoring more than University average percentage marks or set attainment level in the finalexamination.*

*Attainment Level 3: 80% students scoring more than University average percentage marks or set attainment level in the finalexamination.*

- *Attainment is measured in terms of actual percentage of students getting set percentage of marks.*
- *If targets are achieved then all the course outcomes are attained for that year. Program is expected to set higher targets for the following years as a part of continuous improvement.*
- *If targets are not achieved the program should put in place an action plan to attain the target in subsequent years.*

#### **Measuring CO attainment through Internal Assessments: (The examples indicated are for reference only. Program may appropriately define levels)**

*Target may be stated in terms of percentage of students getting more than class average marks or set by the program in each of the associated COs in the assessment instruments (midterm tests, assignments, mini projects, reports and presentations etc. as mapped with the COs)*

#### **Example**

*Mid-term test 1 addresses C202.1 and C202.2. Out of the maximum 20 marks for this test 12 marks are associated with C202.1 and 8 marks are associated with C202.2.*

*Examples related to attainment levels Vs. targets:*

*Attainment Level 1: 60% students scoring more than 60% marks out of the relevant maximum marks.*

*Attainment Level 2: 70% students scoring more than 60% marks out of the relevant maximum marks.*

*Attainment Level 3: 80% students scoring more than 60% marks out of the relevant maximum marks.*

- *Attainment is measured in terms of actual percentage of students getting set percentage of marks.*
- *If targets are achieved then the C202.1 and C202.2 are attained for that year. Program is expected to set higher targets for the following years as a part of continuous improvement.*
- *If targets are not achieved the program should put in place an action plan to attain the target in subsequent years.*

*Similar targets and achievement are to be stated for the other midterm tests/internal assessment instruments*

#### **Course Outcome Attainment:**

For example:

Attainment through University Examination: Substantial i.e. 3

Attainment through Internal Assessment: Moderate i.e. 2

Assuming 80% weightage to University examination and 20% weightage to Internal assessment, the attainment calculations will be (80% of University level) + (20% of Internal level ) i.e. 80% of 3 + 20% of 2 = 2.4 + 0.4 = 2.8

**Note:** Weightage of 80% to University exams is only an example. Programs may decide weightages appropriately for University exams and internal assessment with due justification

#### **4.1. Curriculum (50) (25 for affiliated institutions)**

##### **4.1.1. State the process for designing the program curriculum (10)**

*(Describe the process that periodically documents and demonstrates how the program curriculum is evolved or give the process of gap analysis, whichever is applicable, considering POs)*

The MBA programme is based on the model curriculum of AICTE. On a mission mode to improve the quality of management education AICTE has taken up a major initiative of revising curriculum as a major reform for improving quality of management education of AICTE approved institutions in the country. AICTE takes several initiatives for revision of the curriculum of management programs so as to meet the changing requirements of industry. Keeping in view the latest industry trends, digital economy and market requirements, curriculum revision is made. Collecting input from all the key stakeholders of the management education (namely, industry, academia, and alumni), benchmarking with top Indian and foreign business schools, and also referring the future of the jobs report of world economic forum, the review committee members of the model curriculum and special invites from the different part of the country conducted the catch ball process.

Adopting consultation process, the committee members, developed the program structure, and identified the core and elective courses. The revised curriculum emphasizes an intensive, flexible core in management education with large number of specializations and electives. Overall, an attempt has been made to connect theory to practice and equip MBA students to meet the ever-changing needs of the industry.

Dr. A.P.J. Abdul Kalam Technical University, Lucknow (APJAKTU) is affiliating in nature and its jurisdiction spans the entire state of U.P. in affiliating M.B.A. and

other courses. MBA Course Structure is in accordance with AICTE Model Curriculum prepared by Board of Studies members of APJAKTU having the eminent personalities from academics and Industry. Dr. A.P.J. Abdul Kalam Technical University, Lucknow also constituted Industry Consultation Committee (ICC) to guide the students for preparing their summer project reports during summer internships. The model curriculum provides flexibility in designing curriculum and assigning credits based on the course content and hour of teaching. The Model Curriculum provides an opportunity for the students to choose courses from the prescribed courses comprising core, elective and open elective courses. It provides a cafeteria type approach in which the students can take courses of their choice, learn at their own pace, undergo additional courses and acquired more than the required credits, and adopt an interdisciplinary approach to learning. The Model curriculum provides choice for students to select from the prescribed courses.

### **Sequencing Plan for the MBA Curriculum**

<b>Semester Course Coverage</b>
I Semester & II Semester Core Subjects, Lab / Practical
Summer Training
III Semester & IV Semester Core Subjects and Specialization Subjects

### **Curriculum**

The 2 year curriculum has been divided into 4 semesters and include lectures, tutorials, practical's, seminars and projects etc. in addition to industrial training and educational tour, etc. as defined in the scheme and executive instructions issued by the University from time to time. The curriculum also includes such other curricular, co-curricular and extracurricular activities as may be prescribed by the AKTU, Lucknow from time to time.

## **Courses**

There are two types of courses.

(i) **Core Courses:** This is the course which is to be compulsorily studied by a student as a core requirement to complete the requirements of a program in a said discipline of study.

(ii) **Elective Courses:** This is course, which can be chosen from the pool of papers. It may be supportive to the discipline/ providing extended scope/enabling an exposure to some other discipline / domain / nurturing student proficiency skills.

## **Examination**

- The performance of a student in a semester is evaluated through continuous class assessment and end semester examination. The continuous assessment shall be based on class tests, assignments/tutorials, quizzes/viva-voce and attendance. The marks for continuous assessment (Sessional marks) is awarded at the end of the semester. The end semester examination is comprised of written papers, practical's and viva-voce, project work or by means of any combination of these methods.
- The distribution of marks is based on sessional, end semester theory papers, practical's and other examinations, seminar, project and industrial training. The practical's, viva-voce, projects and reports is examined/evaluated through internal and external examiners as and when required.
- The marks obtained in a subject shall consist of marks allotted in end semester theory paper and sessional work.

## **Award of Sessional Marks**

Sessional marks for theory subjects is awarded as prescribed and at present the break-up of sessional marks shall be as follows:

**Theory Subjects:**

- Class test which will comprise 30% of total theory marks with two mid-term tests of equal weightage.
- Teacher Assessment Tutorial/Assignment/ Quizzes/ Attendance comprises 20% of total theory marks.

**Award of Summer Training Project Reports**

Each student has to successfully complete a following project for the award of MBA degree

- At the end of second semester examination, it is mandatory for every student of MBA to undergo on -the-job practical training in any manufacturing, service or financial organization. The training is of 6 to 8 weeks duration. The Institute facilitate this compulsory training for students.
- The student, after the completion of training submits a report to the Institute which form part of third semester examination.

**Award of Research Project Report**

In fourth semester, the candidates have to submit a Research Project Report on a problem / topic (from the specialization areas) under the supervision of a core faculty member of the department.

Both Project (Summer Training Report & Research Project Report) is treated as project work.

#### 4.1.4. Overall quality and level of program curriculum (15)

MBA Course Structure is in accordance with AICTE Model Curriculum prepared by Board of Studies members of APJAKTU having the eminent personalities from academics and Industry. Dr. A.P.J. Abdul Kalam Technical University, Lucknow constituted Industry Consultation Committee (ICC) to guide the students for preparing their summer project reports during summer internships. The model curriculum provides flexibility in designing curriculum and assigning credits based on the course content and hour of teaching. The Model Curriculum provides an opportunity for the students to choose courses from the prescribed courses

comprising core, elective and open elective courses. The overall development of curriculum is as per industry requirements and reviewed periodically by the Board of Studies, Academic council members of Dr. A.P.J. Abdul Kalam Technical University, Lucknow.

**In case of affiliated institutions following criteria will be applicable for Program Curriculum:**

In case of affiliated institutions marks will be on content beyond to cover the gaps; if any from the POs attainment perspective. It will also include the weightage on efforts put in to cover the gaps. The marks distribution will be as given below:

**4.1.1. State the process used to identify extent of compliance of the University curriculum for attaining the Program Outcomes (10)**

Curriculum compliance is systematic analysis of curriculum, prescribed by University, to identify the degree of competency of syllabi and its contents for attaining the Program Outcomes. In this regard, Department Advisory Committee (DAC) is framed which comprises of Head of the Department, senior faculty members, and representatives from Parents, Alumni, Industry Experts and Academicians. The Department advisory committee carries out the study/investigation to reveal whether the syllabi and its contents intentionally and systematically provide students with opportunities to attain the appropriate knowledge, skill and attitudes. This process helps to identify the gap between University curriculum and Program Outcomes. The identification leads to rectification/remediation.

The curriculum designed by Dr. APJ Abdul Kalam Technical University, Lucknow is in-line with model curriculum of AICTE, and as per industry requirements and its compliance for attaining the program outcomes is listed below:

- A semester system is followed in which marks and grading both are given for all the components of evaluation. Classes are regularly held and the student are also given assignments in each subject.

- Unit test is conducted for all subjects so that the students are assessed and feedback of unit test is given to them for further improvement.
- This continuous evaluation and feedback helps the students to identify and rectify their weakness
- Further, the students participate in group discussions, seminars, conferences and other events organized by the Institute.
- Before the final University examination, Pre University Test (PUT) are conducted as per actual format of University examination.

Some of the other activities are as follows:

- Regular updating of the course plan by faculty members
- Regular monitoring of the course plan
- Conducting regular meeting with parents and provide the feedback of their ward's performance in the class and test.
- Getting student's feedback and analyzing these feedbacks for improvements
- Result analysis of students
- Identification of slow learners based on certain subject tests. Conducting extra classes for slow learners so that all the students should come at the same platform.

#### **4.1.2. Appropriateness of the gaps identified and actions taken to bridge the gap (15)**

Note: In case program is able to demonstrate the compliance of university curriculum in attaining the program outcomes, then the total 25 marks will be for point (4.1.1) above

The corrective measures to tackle the curricular gap are divided into appropriate activities in the Institute. Adequate attention is devoted to implement the content beyond syllabi through additional course like MOOCs, self-learning materials and other appropriate activities. In order to enhance learning and employability of the

students, Rajshree Institute of Management & Technology, Bareilly focused on different courses beyond the course curriculum prescribed by University like soft skills development courses, MOOCs offered by SWYAM, NPTEL, IIMBX, E& ICT Academy and many more. Institute also arranges English speaking classes, computer classes, Business News Briefing classes to provide the insight of business world. These classes are also taught by the faculty members along with other subjects which have really improved chances of enhance their learning so that they explore the opportunities in better way. Different seminars, guest lectures, national and international conferences are organized time to time. The following table gives gap analysis based on PO attainment perspective along with efforts put to cover the gaps.

## **4.2. Learning Processes (75) (100 for affiliated colleges)**

### **4.2.1. Describe Processes followed to improve quality of Teaching & Learning (20) (40)**

(Processes may include adherence to academic calendar and improving instruction methods using pedagogical initiatives such as real world examples, collaborative learning, analysis of data etc. encouraging bright students, assisting weak students etc. The implementation details need to be documented)

There are various initiatives that Rajshree Institute of Management & Technology, Bareilly has put in to practice to improve teaching & learning quality in the classroom are as follows:

**Introduce technology in the classroom:** Today, we live and function in a digital era where students are constantly exposed to the latest trends in technology and media. When teaching these new-age students, it becomes important for teachers to be flexible and find new ways to improve their teaching quality. This not only helps them to be more effective in the classroom but will help their students learn and retain the information in a better way. Faculty members use videos, free online resources and other digital tools which can be easily implemented in their classroom. Young students are more adept with technological skills, so by integrating technology into the classroom, we instantly help our students learn better and faster.

**Personalize the learning experience of the students:** One of the most effective ways to teach is to personalize the learning experience to meet the needs of each individual learner. Personalized learning combines face-to-face teaching with technology-assisted instruction and student collaboration to leverage each student's learning style and interests. The final aim is to create a stimulating learning experience for all involved.

### **Involve Parents**

The best teachers do not teach in isolation, but they work with the students, keeping parents involved and informed at all times. Rajshree Institute keep the parents updated on their ward's performance.

### **Empower students to be active learners**

One of the best ways to improve the quality of teaching is to guide the students to be active learners rather than simply be spectators. Active learning can best be described as a process when students engage with the material, participate in the class, and collaborate with each other as part of the learning process. Faculty members ask the students to engage in the class room through various activities which includes student collaboration, asking students to analyses case studies, debates and discussing new ideas both during lectures and homework, etc.

### **Rigorous process of selection of faculty members**

A careful selection of faculty members for improving the quality of teaching is essential. Faculty members are recruited in general by invitation of application from candidates through targeted and rolling advertisements. The essential qualification required for the candidates is as per AICTE/University guidelines. Shortlisted candidates would be invited to presentation and interview in the campus. They are required to have an academic interaction with the interview board/ screening committee/selection committee.

### **Continuous focus on faculty development**

Faculty development programs (FDPs) have proven to be successful for improving teaching skills in higher education. FDPs are conducted regularly in the institute for improving the teaching skills of all faculty members. Faculty members are also motivated to join FDP organized by NPTEL-AICTE FDP and other esteemed Universities and Institutions. They are also encouraged to join various courses, seminars, conferences, webinars, experts' lectures, etc. organized by industries and institutions.

## **Academic Calendar**

The academic calendar has been made and aligned with University academic calendar. Apart from this the events proposed by the university in academic calendar, Institute has introduced many other events which are useful in overall development of the students.

## **Maintenance of Course files:**

For every course, a course file is maintained by the subject faculty. The maintained course file includes the following things:

## **Planning:**

- **Subject allocation:** The allotment of subjects to faculty after the end of semester. The courses are allowed based on the alternative filled by the subject teacher.
- **Department action plan and overview of the previous semester:** The work plan for the next semester is ready and discussed at the faculty meeting. Academic responsibilities are assigned and the process for fulfilling them is discussed. A new value-added program has been identified and planned. An overview of the activities and results of the past semester is also part of the discussion.
- **Lesson plan:** Lesson plans are drawn up by teachers for each lecture in the curriculum before the semester begins and is approved after careful study by the Head of the department. Department make it accessible to students. Lesson plan includes teaching Results and evaluation of results.
- **Question Bank:** A question bank is made for each course topic, depending on the course and course objectives. Results and consideration of the nature of the tasks of the university. Previous question University documents are also stored in course files. List of tasks and check questions, solution tests are included in the course files.

- **Implementation:**
  - **Lecture method and Interactive learning:** The College uses chalk, chalkboards and audiovisual aids in teaching. Students are also encouraged to actually interact during the lecture, asking questions on the spot, use of teachers Models and diagrams for interactive learning
  - **Project-based learning:** Real time projects are provided to the students and they are guided by the faculty members.
  - **SMART class Room:** The content of the lecture are provided by the smart classes on the projector. Live sessions are also effective by using the projector. Following are some extra pedagogical initiatives taken by the department in addition to Chalk and Talk, Lectures, Assignments, Power Point Presentation, and Tutorials:
    - Role Play
    - Visual Chart
    - Interaction with live example from industries
    - E-content
    - Group Projects
    - Extra lab activities beyond the syllabus
    - Seminar
    - Conferences
    - Webinars
    - Guest Lectures
    - Alumni Interaction
    - Problem solving by simulation
    - Case studies
    - MOOCs
    - Business Simulation
    - Management Games
- **Methodologies to support academically weak students and encourage bright students:**

- **Strategy to find out the weak student:** The Faculty members do meetings on the regular basis to find-out the weak students who secure less mark in their internals. According to HoD's instruction, faculty members take extra efforts to provide all kind of assistances

Identification Criteria	Action taken
Students who secure less than 50% marks in Internal Assessment	Based on the assessment we should come to know that the students are weak in which section.  Inspire to student's parent to counsel them time to time.
Student who fail in semester exams	Perform some extra classes those who failed in exam.

- **Bright student Identification:**

Identify top three students from each class	Award them with mementos
Students got rank at university level	Award them with Gold Medal

- **Quality of classroom teaching:**

Faculty members use projectors and other audio-video in classes.

- **Lab/Practical:**

The institution is affiliated to AKTU, Lucknow. We follow the syllabus which is provided by the AKTU.

Computer Classes are conducted regularly in Computer lab.

- **Student Feedback of Teaching Learning Process and Actions taken:**

- At the end of the semester, all the students are required to fill the feedback-form

- It is monitored by the senior Professors and the Heads of the Department. They can suggest some points regarding to improve the quality of teaching and teaching-learning methods.
- Time to time analysis is done by the department Question papers for the exams are prepared by the university. The papers for college level are prepared by the faculty members such as assignment, internal assessments like (unit tests), and internal viva-voice etc.
- Model papers with its solutions are also prepared by the faculty members

#### **A. Initiatives:**

Here are some primary steps have been considered at department level to ready the quality material for paper and assignments for all the internal assessments

- Departmental advisory committees at the start of the semester take care of the quality assessments and question papers. The member of the committee faculty members, class coordinator and HoD.
- A brief discussion plays a vital role to prepare the assignments, model papers, question papers.
- The model papers and paper are prepared before the start of semester.
- Unit wise assignments are provided to the students at the end of the unit.
- The teachers encourage to students for the case studies on different topics.

#### **B. Implementation Phase:**

##### **Student Assignments**

- Assignments done by the students on a separate file.
- Assignments are checked by the faculty members.
- Some best assignments should be discussed by the students in the classroom.

## **Question papers**

- Separate question papers are prepared by the faculty of each subject.
- They refer the standard books and previous year's questions papers to prepare the question paper.
- The standard of the question paper is based on university pattern.
- Question papers quality verified by the HOD or departmental committee.

### **4.2.2. Quality of continuous assessment and evaluation processes (40)**

The term Assessment has been widely used by educators to evaluate, measure, and document the academic readiness, learning progress, and skill acquisition of students throughout their learning in life. Different terminologies are there for assessment and evaluation such as Measurement, Tests, Examination, Appraisal and Evaluation. In education, the term assessment refers to the wide variety of methods that educators use to evaluate, measure, and document the academic readiness, learning progress, and skill acquisition. It is the process of systematically gathering information as part of an evaluation. Assessment is carried out to see what students know, understand and are able to do. Assessment is very important for tracking progress, planning next steps, reporting and involving parents, and students in learning.

Evaluation is a broader term that refers to all of the methods used to find out what happens as a result of using a specific intervention or practice. Evaluation is the systematic assessment of the worth or merit of some object. It is the systematic acquisition and assessment of information to provide useful feedback about some object. Though the terms assessment and evaluation are often used interchangeably, there are some difference in it. Assessment is defined as gathering information or evidence, and evaluation is the use of that information or evidence to make judgments.

The primary purpose of assessment is to improve students' learning and teachers' teaching as both respond to the information it provides. Assessment for learning is an ongoing process that arises out of the interaction between teaching and learning. The term 'continuous assessment' is used to describe assessments that are completed during the course module. The method is also referred to as curriculum integrated assessment or embedded assessment. Continuous assessment replace the final assessment or can be combined with the final assessment to calculate a final grade. The reason for doing continuous assessment is to secure/enable a continuous and independent work rate and learning for students during the course. It is important that students practice the assessment method before the final assessment. This 'curriculum embedded' or 'continuous assessment' allows for feedback to students and teachers.

<b>CONTINUOUS ASSESSMENT</b>		<b>HOW TO</b>	<b>MEDIA</b>
<b>Written</b>	<b>Problem solving</b>	Theoretical exercises/tutorials  Weekly assignments incl. feedback from peers	Problem solving as assignments or tests in Blackboard or copy
	<b>Long/short answer</b>	Written assignments (preferably several small assignments compared to one large)  Teacher/peer feedback using assessment criteria  Feedback can focus on selected parts	Assignments in Blackboard/copy with/without assessment criteria  Discussion  Tests with 'short answers' questions with/without word restriction in Blackboard or copy
	<b>Multiple choice</b>	Teacher generated questions with or without feedback  Student generated questions	Multiple choice questions in Blackboard/copy  Student-generated multiple choice questions
<b>Oral</b>	<b>Without preparation</b>	Students draws random questions, and give immediate response to questions	In class

<b>CONTINUOUS ASSESSMENT</b>		<b>HOW TO</b>	<b>MEDIA</b>
	<b>Other</b>  E.g. with preparation, with aids, student presentations, based on previously work	Presentations in class with feedback from faculty member and/or peers  Students (not presenting) can be actively involved (opponents, asking questions, peer assessment, etc.)	In class  PPT in class with feedback from faculty member and/or peers
<b>Practical/Lab work</b>		Practice during computer lab sessions, field work, survey or at home work  Internship/placement  Peer feedback exercises	Assignments/survey/project work in lab or field  provide feedback

Examples of assessment types are listed below:

- Small written assignments
- Student presentations/seminars
- Practical skills tests
- Active participation
- Multiple choice questions (potentially student-generated)
- Peer assessment

## **Continual Evaluation**

The performance of a student in each course is assessed by the faculty by means of continuous evaluation components like, Small Case-lets, Assignments, Seminars, Viva, Quizzes, Projects, Term Papers, Mid-Semester written examination etc. in addition to the End Semester Examinations conducted at the end of the Semester. Through continual evaluation components the students would be judged for various characteristics such as: Comprehension of concepts, Application of concepts, Creativity and originality, Decision-making ability, Documentation and data handling, Self-expression, Leadership and Class participation.

### **4.2.3. Quality of student reports/dissertation (15)(20)**

*Quality of the project is measured in terms of*

- *Very clear and concise objectives*
- *Very clear methodology, articulated using technical terms indicating all steps and tools*
- *Cites substantial current and good quality literature*
- *Clarity in research methodology*
- *Benchmarks used / Assumptions made*
- *Interpretation of results and justification thereof and validity of the results presented. □ Overall presentation of there port*

**Note: Semester may be read as Trimester/Semester/Yearly as applicable**

## **Summer Training Project Report**

At the end of the second semester examination, it is mandatory for every student of MBA to undergo on the-job practical training in any manufacturing, service or financial organization. The training will be of 6 to 8 weeks duration. The institute facilitates this compulsory training for students. During the training, the student is expected to learn about the organization and analyze and suggest solutions to a live problem. The objective is to equip the students with the knowledge of actual functioning of an organization and problems faced by them for exploring feasible solutions. During the course of training, the organization (where the student is

undergoing training) assigns a problem/project to the student. The students, after the completion of training submit a report to the Institute which form part of the third semester examination.

The report (based on training and the problem/project studied) prepared by the student is known as Summer Training Project Report. The report is based on primary and secondary data. It reflect in depth study of a micro problem, ordinarily assigned by the organization where the student undergoes training. Relevant tables and bibliography should support it. One comprehensive chapter is included about the organization where the student has undergone training. This deals with brief history of the organization, its structure, performance products/services and problem faced. The Summer Training Project Report carry 150 marks and is evaluated by two examiners (external and internal). The evaluation consist of (1) Project Report evaluation (2) Project Presentation and VivaVoce.

### **Research Project Report (RPR)**

In fourth semester, the candidates will have to submit a Research Project Report on a problem/topic (from the specialization areas) to be assigned by the MBA department under the supervision of a core faculty member of the department. The report will contain the objectives and scope of the study. Research Methodology, use and importance of the study, analysis of data collected, conclusions and recommendations. It will contain relevant charts, diagrams and bibliography.

## Revolution In Jewellery Industry through Digital Distribution

### Introduction

The Indian Gems and Jewellery sector are one of the largest in the world, but highly unorganized and fragmented. 96 percent of the total players are from family owned businesses<sup>1</sup>. In 2018, the market size of Indian gems and Jewellery sector was about Rs. 524,175 crores and expected to reach Rs. 698,900 crores in 2025<sup>2</sup>. There are few organized players like Jewellery & Lifestyle Mart India Pvt. Ltd. (JLMI), Titan, PC Jewellers, Malabar Gold, Kalyan Jewellers, Tribhovandas Bhimji Zaveri, Gitanjali Gems Ltd. Kalyan, Reliance, Orra, Senco, TBZ, Tara, etc. competing each other in Indian market. In India, customers from tier II and tier III towns are also purchasing branded Jewellers who provide the attractive market opportunities for branded companies as India is one of the largest consumers of gold in the world.

The present case identifies the different strategies adopted by JLMI to capture the Indian market. It also highlights about the challenges which Mr. Anshu Mishra, Regional Operations Head (Digital Distribution) has to face in the fiercely competitive environment and what strategies, he has taken to make his company's business more attractive in retailers and customer's mind through new and unconventional ways with his futuristic approach.

### Mr. Anshu Mishra: A Brief Career Sketch

The boy, who realized his dream which had already taken shape in his sophomore year of management course, is none other than Mr. Anshu Mishra from a well-known city Bareilly; especially in Bollywood with its super hit song Jhumka Gira Re Bareilly Ke Bazaar Mein from the movie Mera Saaya. Bareilly is the famous city of the geographical region of Rohilkhand and Indian State of Uttar

## Teaching Note for Case Study:

## Revolution In Jewellery Industry through Digital Distribution

## Synopsis of the Case

This case is based on a real company named Jewellery and Life Style Mart India Pvt. Limited (JLMI) which started its operations in India in 2012. It details the emergence and growth of JLMI and its marketing strategy to expand the market. Recently JLMI appointed Mr. Anshu Mishra as a Regional Operations Head (Digital Distribution). The company has adopted many strategies like digital distribution through the JLM App under the dynamic leadership of Mr. Santosh Srivastava, Chairman and Managing Director of the company. Although JLMI has taken many strategies, but still, Mr. Mishra has to take several initiatives to retain its present clients and strengthen its position in the Indian market. He was well aware that there was many challenges waiting for him in a fiercely competitive environment. In order to analyze the purchase behaviour and perception towards branded Jewellery over Unbranded jewellery, he conducted research in tier II and tier III cities with the help of a structured questionnaire and had a long discussion with the industry experts. His research concluded that there was huge potential for the branded jewellery in the years to come. He also identified several factors which may help in generating the customer's interest for a specific brand of his company. It remained to be seen whether JLMI would deliver the excellent services through the JLM App under the dynamic leadership of Mr. Srivastava and Mr. Mishra in the long run.

## Brief Description and Context of the Case

This case is based on real experience of Mr. Anshu Mishra, who joined Jewellery and Life Style Mart India Pvt. Limited (JLMI) as a Regional Operations Head (Digital Distribution). It focuses on the marketing strategies taken by Mr. Mishra and ends on the debate whether strategic initiatives will help JLMI to achieve its long-term objectives of being a leader of the industry through digital distribution.

### **Abstract**

The objectives of writing this paper is to study the current practices related to the various waste management initiatives taken in India for human wellbeing. The other purpose is to provide some suggestions and recommendations to improve the waste management practices in Indian towns. This paper is based on secondary research. Existing reports related to waste management and recommendations of planners/NGOs/consultants/government accountability agencies/key industry experts/ for improving the system are studied. It offers deep knowledge about the various waste management initiatives in India and find out the scope for improvement in the management of waste for the welfare of the society. The paper attempts to understand the important role played by the formal sector engaged in waste management in our country. This work is original and could be further extended.

### **Introduction**

“There are few things certain in life – one is death, second is change and the other is waste.” No one can stop these things to take place in our lives. But with better management we can prepare ourselves. Here we will talk about waste and waste management. Each of us has a right to clean air, water and food. This right can be fulfilled by maintaining a clear and healthy environment. Now for the first question, what is waste? Any material which is not needed by the owner, producer or processor is waste. Generally, waste is defined as at the end of the product life cycle and is disposed of in

# Creating Blue Ocean in Ophthalmology through Ayurveda

Raveesh Agarwal<sup>1</sup> and Tanya Sachdeva<sup>2</sup>

## ABSTRACT

*This case explores the blue ocean journey of a recipient of U.P. Ratna, Emeritus Prof. Dr. M.S. Basu, who built a unique value proposition by overcoming many challenges. It was his relentless dedication and commitment to the society due to which he invented Isotine Eye Drops through the ancient science of Ayurveda for curing various eye disorders without operation. With his innovative business model and strategic mindset, he positioned Isotine as an authentic ayurvedic brand despite many controversies in the market. When traditional Ophthalmology players were competing with each other, he established Jagat Pharma to provide high-quality herbal medicines and eye care remedies. Mr. Basu recognized that a more structured approach is required for business development, so he appointed Dr. Mandeep Singh Basu as a CEO of the company. Now it is the responsibility of Dr. Singh to assess his future potential and maintain good ethical practices to serve the community.*

### Dilemma/Questions:

*This case revolves around how Dr. Basu invented and positioned Isotine as an authentic ayurvedic brand and created the blue ocean. This case closes by questioning on how Dr. Singh will fulfil his father's dream to rid the world of blindness through Ayurveda.*

### Theory:

*Blue Ocean: This case structured around Dr. Basu strategic moves to create the blue ocean.*

### Basis of the Case: Phenomenon

### Type of the case: Applied Decisional

### Protagonist: Present

### Findings/Options:

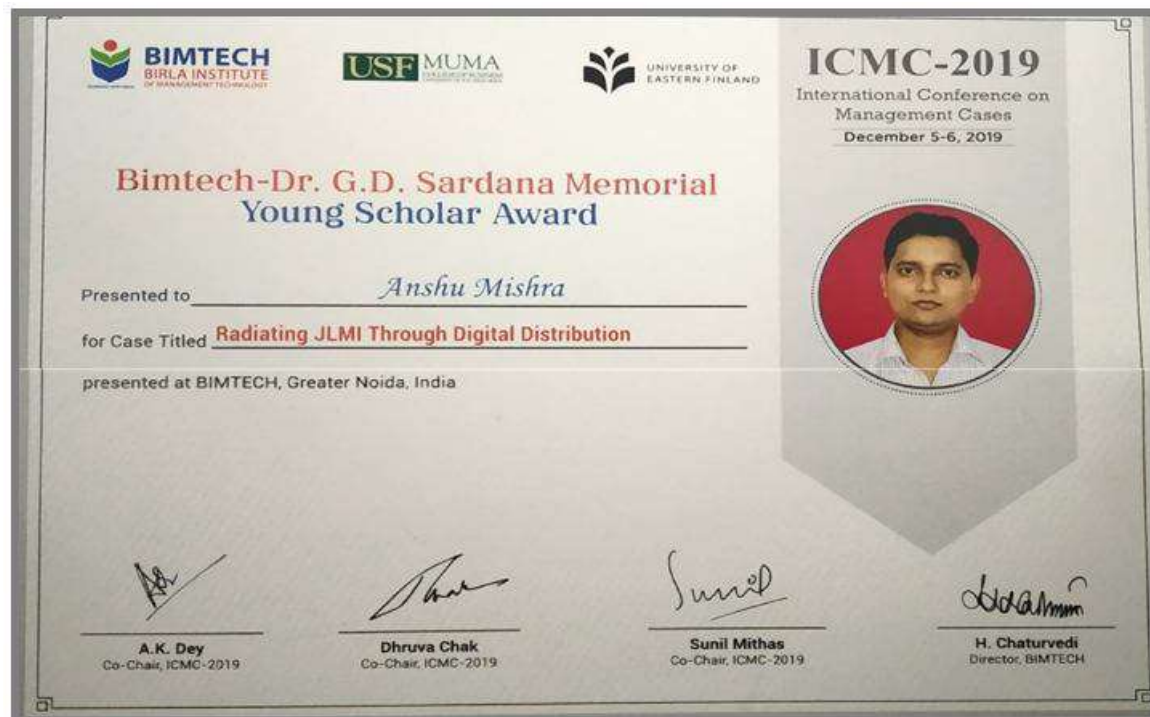

*The case exhibits how much effort Dr. Basu has put to make a product acceptable in the market through blue ocean strategies. He explored the opportunities in an Ayurvedic Ophthalmology industry that not only changed the opinion of people about Ayurvedic eye care treatment but also led to its acceptance in the Indian landscape. Dr. Basu introduced new perspectives, from planning to implementation that unlocked new demand in the market. Now it will not be an easy task from implementation to managing strategically in the near future.*

**Note:**

1. Minimum 75% should be Regular faculty and the remaining shall be Contractual Faculty as per AICTE norms and standards.
2. The contractual faculty (doing away with the terminology of visiting/adjunct faculty, whatsoever) who have taught for 2 consecutive semesters in the corresponding academic year on full time basis shall be considered for the purpose of calculation in the Student Faculty Ratio.
3. *Depending upon the No. of programs in UG and PG the above table has to be updated accordingly. For Ex: if UG="0" and PG="1". The table may be prepared for only one PG program.*
4. Marks to be given proportionally from a maximum of 10 to a minimum of 5 for average SFR between 15:1 to 25:1, and zero for average SFR higher than 25:1. Marks distribution is given as below:

$\leq 15$	-	10Marks
$\leq 17$	-	09Marks
$\leq 19$	-	08Marks
$\leq 21$	-	07Marks
$\leq 23$	-	06Marks

## 6.5. Faculty Initiatives on Teaching and Learning (10)

*Innovations by the Faculty in teaching and learning shall be summarized as per the following description.*

*Contributions to teaching and learning are activities that contribute to the improvement of student learning. These activities may include innovations not limited to, use of ICT, instruction delivery, instructional methods, assessment, evaluation and inclusive class rooms that lead to effective, efficient and engaging instruction. Any contributions to teaching and learning should satisfy the following criteria:*

- The work must be made available on Institutewebsite*
- The work must be available for peer review andcritique*
- The work must be reproducible and developed further by otherscholars*

*The department/institution may set up appropriate processes for making the contributions available to the public, getting them reviewed and for rewarding. These may typically include statement of clear goals, adequate preparation, use of appropriate methods, and significance of results, effective presentation and reflective critique.*

There are various initiatives that Rajshree Institute of Management & Technology, Bareilly has put in to practice to improve teaching & learning quality in the classroom are as follows:

**Introduce technology in the classroom:** Today, we live and function in a digital era where students are constantly exposed to the latest trends in technology and media. When teaching these new-age students, it becomes important for teachers to be flexible and find new ways to improve their teaching quality. This not only helps them to be more effective in the classroom but will help their students learn and retain the information in a better way. Faculty members use videos, free online resources and other digital tools which can be easily implemented in their classroom. Young students are more adept with technological skills, so by integrating technology into the classroom, we instantly help our students learn better and faster.

**Personalize the learning experience of the students:** One of the most effective ways to teach is to personalize the learning experience to meet the needs of each individual learner. Personalized learning combines face-to-face teaching with technology-assisted instruction and student collaboration to leverage each student's learning style and interests. The final aim is to create a stimulating learning experience for all involved.

### **Involve Parents**

The best teachers do not teach in isolation, but they work with the students, keeping parents involved and informed at all times. Rajshree Institute keep the parents updated on their ward's performance.

### **Empower students to be active learners**

One of the best ways to improve the quality of teaching is to guide the students to be active learners rather than simply be spectators. Active learning can best be described as a process when students engage with the material, participate in the class, and collaborate with each other as part of the learning process. Faculty members ask the students to engage in the class room through various activities which includes student collaboration, asking students to analyses case studies, debates and discussing new ideas both during lectures and homework, etc.

### **Rigorous process of selection of faculty members**

A careful selection of faculty members for improving the quality of teaching is essential. Faculty members are recruited in general by invitation of application from candidates through targeted and rolling advertisements. The essential qualification required for the candidates is as per AICTE/University guidelines. Shortlisted candidates would be invited to presentation and interview in the campus. They are required to have an academic interaction with the interview board/ screening committee/selection committee.

### **Continuous focus on faculty development**

Faculty development programs (FDPs) have proven to be successful for improving teaching skills in higher education. FDPs are conducted regularly in the institute for

improving the teaching skills of all faculty members. Faculty members are also motivated to join FDP organized by NPTEL-AICTE FDP and other esteemed Universities and Institutions. They are also encouraged to join various courses, seminars, conferences, webinars, experts' lectures, etc. organized by industries and institutions.

### **Academic Calendar**

The academic calendar has been made and aligned with University academic calendar. Apart from this the events proposed by the university in academic calendar, Institute has introduced many other events which are useful in overall development of the students.

**Maintenance of Course files:**

For every course, a course file is maintained by the subject faculty. The maintained course file includes the following things:

**Planning:**

- **Subject allocation:** The allotment of subjects to faculty after the end of semester. The courses are allowed based on the alternative filled by the subject teacher.
- **Department action plan and overview of the previous semester:** The work plan for the next semester is ready and discussed at the faculty meeting. Academic responsibilities are assigned and the process for fulfilling them is discussed. A new value-added program has been identified and planned. An overview of the activities and results of the past semester is also part of the discussion.
- **Lesson plan:** Lesson plans are drawn up by teachers for each lecture in the curriculum before the semester begins and is approved after careful study by the Head of the department. Department and make it accessible to students. Lesson plan includes teaching Results and evaluation of results.
- **Question Bank:** A question bank is made for each course topic, depending on the course and course objectives. Results and consideration of the nature of the tasks of the university. Previous question University documents are also stored in course files. List of tasks and check questions, solution tests are included in the course files.

**Implementation:**

- **Lecture method and Interactive learning:** The College uses chalk, chalkboards and audiovisual aids in teaching. Students are also encouraged to actually interact during the lecture, asking questions on the spot, use of teachers Models and diagrams for interactive learning
- **Project-based learning:** Real time projects are provided to the students and they are guided by the faculty members.

**SMART class Room:** The content of the lecture are provided by the smart classes on the projector. Live sessions are also effective by using the projector. Following are some extra pedagogical initiatives taken by the department in addition to Chalk and Talk, Lectures, Assignments, Power Point Presentation, and Tutorials:

- Role Play
- Visual Chart
- Interaction with live example from industries
- E-content
- Group Projects
- Extra lab activities beyond the syllabus
- Seminar
- Conferences
- Webinars
- Guest Lectures
- Alumni Interaction
- Problem solving by simulation
- Case studies
- MOOCs
- Business Simulation
- Management Games

**Methodologies to support academically weak students and encourage bright students:**

**Strategy to find out the weak student:** The Faculty members do meetings on the regular basis to find-out the weak students who secure less marks in their internals. According to HoD's instruction, faculty members take extra efforts to provide all kind of assistances.

**Feedback:** Feedback is taken from the students on regular interval. From all the students of the class feedback forms will be collected and further actions will be taken based on the feedback. Feedback system followed is of three types:

1. **Direct Feedback from the Students:**
2. **Interactive Feedback:**
3. **Consolidate Feedback:**

### **Rewards**

- Based on the academic performance, college toppers were awarded
- Students having full attendance were rewarded

## **CONSOLIDATION & CORRECTIVE ACTION TAKEN**

### **Action Taken and Impact Analysis on teaching learning process:**

Based on student / faculty feedback Placement Orientation Programs has been organized once in a month so as to guide the students about the companies and their career.

- Value added classes such as Soft skills classes, and English communication classes were provided to students in order to prepare them for placements.
- E-notes and previous year papers were provided to students so as to improve their performance and produce better results.
- Arrangement of special classes were made for students so that they could get proper knowledge and able to develop their skills for future.
- Mock interviews were scheduled for each and every student so that they can be confident and able to face the interviews of companies in future.
- In the end of semester, addition classes for revision were arranged by the faculties and sample papers were made to be solved by the students so as to make their results better. This helped a lot in improving the performance of students and building their confidence to solve the complex problems.
- Every student was made to interact with their respective subject faculties based on the interaction hour schedule prepared by the faculty members so that special attention can be given to each student and their problems can be sorted. This helped the students to achieve better results.
- Class tests were scheduled by the respective faculty members in order to monitor the performance of students and assignments were given to students and checked by faculty members regularly.
- Extra question banks were provided to students so that they can be prepared to solve every question and be aware of every topic before appearing for the examination.

- Modern pedagogical tools like NPTEL, Industrial training, guest lectures, and industrial visits were also arranged for the students in order to make them industry ready.

## Feedback of Faculties

Feedbacks of faculties were taken from students based on the feedback form:-

HOD	50	20	15	15	100

Feedbacks collected from students are analyzed. From the analysis it was observed that students are progressing in every field due to the guidance and motivation provided by their respective faculties. Faculties are providing good knowledge in their subjects and periodic tests are taken by them on regular basis. Corrective actions are taken by HOD in case of any problem or issue. Students are monitored by their concerned faculties and they are in turn monitored by HOD. In this way, academic activities are carried out in smooth fashion. Extra efforts are also made on co-curricular activities so that the skills of students can be enhanced. Extra classes are taken by the faculties for the weak students in order to improve their performance. In this way, the working is going on regularly and is focused on improving the academic performance.

## Revolution In Jewellery Industry through Digital Distribution

### Introduction

The Indian Gems and Jewellery sector are one of the largest in the world, but highly unorganized and fragmented. 96 percent of the total players are from family owned businesses<sup>1</sup>. In 2018, the market size of Indian gems and Jewellery sector was about Rs. 524,175 crores and expected to reach Rs. 698,900 crores in 2025<sup>2</sup>. There are few organized players like Jewellery & Lifestyle Mart India Pvt. Ltd. (JLMI), Titan, PC Jewellers, Malabar Gold, Kalyan Jewellers, Tribhovandas Bhimji Zaveri, Gitanjali Gems Ltd. Kalyan, Reliance, Orra, Senco, TBZ, Tara, etc. competing each other in Indian market. In India, customers from tier II and tier III towns are also purchasing branded Jewellers who provide the attractive market opportunities for branded companies as India is one of the largest consumers of gold in the world.

The present case identifies the different strategies adopted by JLMI to capture the Indian market. It also highlights about the challenges which Mr. Anshu Mishra, Regional Operations Head (Digital Distribution) has to face in the fiercely competitive environment and what strategies, he has taken to make his company's business more attractive in retailers and customer's mind through new and unconventional ways with his futuristic approach.

### Mr. Anshu Mishra: A Brief Career Sketch

The boy, who realized his dream which had already taken shape in his sophomore year of management course, is none other than Mr. Anshu Mishra from a well-known city Bareilly; especially in Bollywood with its super hit song Jhumka Gira Re Bareilly Ke Bazaar Mein from the movie Mera Saaya. Bareilly is the famous city of the geographical region of Rohilkhand and Indian State of Uttar

<b>CRITERION 7</b>	<b>Industry &amp; International Connect</b>	<b>130</b>
--------------------	---	------------

### **7.1.Industry Connect (90)**

The gap between theoretical knowledge and the practice of skills is widening. At this juncture, 'Industry Connect' for Business Management students is useful. Industry Connect for Management students is useful to bridges the gap between academia and industry. It is helpful in providing the training to the students to prepare them according to need of the industries. It also provides an opportunity to the faculty members to understand what each industry needs so that they can align their teaching to the needs of the specific industry. Rajshree Institute of Management & Technology facilitates internships for students to ensure that they get industry exposure during their campus days itself. Industry based internships enriches business education by connecting theory and practice. It deepens understanding of analytical concepts and tools, builds confidence in their use, and hones skills essential for their successful application. It also forces students to learn to identify and define problems, understand and navigate formal and informal structures, identify implementable actions, and exercise judgments when making decisions.

#### **7.1.1.Consultancy (from Industry)(25)**

(Provide a list with Project Title, Funding Agency, Amount and Duration) Funding amount (Cumulative during CAYm1, CAYm2 and CAYm3):

Amount >=25Lacs	25Marks,
Amount >= 20 and <25Lacs	20Marks,
Amount >= 15 and <20Lacs	15Marks,
Amount >= 10 and <15Lacs	10Marks,
Amount >= 5 and <10Lacs	5Marks,
Amount <5Lacs	0Mark

Consultancy is an academic activity and dynamic learning process for the faculty members. It provides an opportunity for them to share insights with practitioners and contributes their knowledge and experiences. Consulting brings the faculty in contact with real-life managerial problems, and thus greatly enriches teaching and research insights. Consultancy is an emerging area in Rajshree Institute of Management

&Technology, Bareilly. We are providing consultancy services related to hospital administration, recruitment training to Rajshree Medical Research Institute, Bareilly and Rajshree Ayurvedic Medical College & Hospital.

#### **7.1.2.Faculty as consultant of the industries (15)**

(Qualitative assessment on the basis of type of consultancy, number of faculty involved, type of industries and completion of consultancy assignments)

Rajshree Institute of Management &Technology encourages its faculty members to undertake consultancy assignments. Faculty members are providing consultancy services related to hospital administration to Rajshree Medical Research Institute, Bareilly and Rajshree Ayurvedic Medical College & Hospital. We expect to get involved in more assignments in future.

#### **7.1.3.Initiatives related to industry interaction including industry internship / summer training/study tours/ guest lectures (15)**

Summer internships bring with itself a plethora of opportunities. The first and biggest benefit of summer internship is that it help the students gain real-life experience. With summer internships students get a chance to apply classroom knowledge on the field. As interns, students learn how to handle real-life corporate situations and tackle the challenges easily that might come in their career in the future. With it, the students bridge the gap between the theoretical knowledge and practical skills and at the same time they get a chance to explore the real world. Rajshree Institute assist all the students for summer internships in good organizations because of its importance in student's life. Summer internships are important for the students to

- Gain Real-Life Experience and Exposure
- Engage with Professionals and Create a Network
- Enhances their Resume
- Earn during their vacations
- Builds Confidence
- Helpful in final placements
- Get feedback from Industry
- Get pre placement offer

Rajshree Institute of Management & Technology, Bareilly providing many opportunities to all the students for summer training, live projects, final placement in reputed organizations. Rajshree is associated with Internshala, AKTU Central Training & Placement Cell (CTPC) (earlier known as AKTU - University Industry Interface cell), National Programme on Technology Enhanced Learning (NPTEL), and many other organizations to equip students with relevant skills & practical exposure through internships and online trainings. Rajshree institute has tied up with many corporate to provide training, summer internships and final placement opportunities to the students.

- An opportunity to appear for a pre-placement interview and land a full-time role at Swiggy

### Who can apply to become Campus CEO

1. We are looking at 2nd/3rd year UG or 1st year PG students who are interested in pursuing a live business project along with their academics
2. Students who have a flair for extracurriculars and want to learn what it takes to start their own business
3. Willing to travel to Bangalore for 2 days training session at our corporate HQ

### Application process:

1. Apply on <https://launchpad.swiggy.com>
2. Submit online case study and assessment
3. Shortlisted students will sit for personal interviews (video conferencing)
4. Selected candidates will undergo a 2hrs of training program for two days via web.

Here is the [ET article Link](#) on Swiggy Launchpad, enclosed is the JD and a flyer explaining the program and its benefits.

### Permissions Required

To make students aware of the program, we would request you to allow our marketing teams to put up posters on notice boards, and interact with a group of students for effective communication. Kindly revert back for the same, so that we can schedule a visit to the campus accordingly.

Swiggy will abide by all the rules and regulations of the institute. If there are any other requirements of the institute, Swiggy will be happy to oblige.

Looking forward to working with you to get your campus Swiggying!

## **Study Tours**

A study tour is an experience where students get a chance to learn beyond the course curriculum to enhance their learning and skills. Rajshree Institute provide the opportunity to enhance their skills through different tours. Rajshree Institute signed memorandum of understanding with Warsaw Management University, Poland which provide the various opportunity to all the students. Industrial visits are also arranged on a regular basis by the institute.

## **Guest lectures**

Guest lectures are among the best ways for students to get acquainted with current business situations and challenges. Students get to know about existing problems from industry professionals who are facing them and present solutions also. Students often change career paths according to their interests, and guest lectures are the best way to get to know about specific niches. Practical approach with theoretical knowledge is the necessity to learn any field. Guest lectures enable the students in enriching the latest updates regarding avenues for higher studies and jobs as well as the need of the industry. While handling the real modern life challenges one must need the best academicians with leadership quality and knowledge about soft skills. To extend learning beyond the classroom teaching, we invite experts from the industry to conduct guest lectures, seminars and workshops. We invite the eminent personalities of various fields and stalwarts of the industry to lend valuable information from their first-hand experience which is serve as an ideal platform for the students.

At Rajshree Institute of Management & Technology, emphasis is given not only in making the students academically brilliant but successful in all life skills forgetting the pressure of the work. The fascinating lectures on various topics boost the confidence of new aspirants as the lectures ends with motivating question and answer sessions. Distinguished guest lecturers speak on various important topics that would prove beneficial for them while choosing the right career paths. Rajshree Institute of Management & Technology also invite successful alumni members to deliver guest lectures for students. These lectures are filled with a lot of value add, and the best

part is that students can easily correlate to the lecturers' journey. We have organized multiple numbers of webinars seminars guest lectures, etc. on multidisciplinary topics which allows students to attain new knowledge and skills that can supplement or complement their main field of study. These webinars proved as a boon for students during lockdown period as they break the monotony and revive interest when students get to know about the practical applications of theoretical concepts.
